RE: Ric-Man International Inc. Letter of Recommendation

Dear Ms. Lauder milk:

Over the last 20 years I have personally managed numerous projects with Ric-Man International. Their integrity and productivity is well above average. As an Underground Engineering Contractor, Ric-Man International, have furnished and installed thousands of feet of pipe from 120-inch concrete pre-stressed pipe to 8-inch ductile iron pipe; both in water lines and in deep sanitary sewers. Their personnel are very well experienced in underground utilities and roadways construction. They have also performed especially well at directional drilling, pumps stations, subaqueous crossings, and aerial crossings. They work very closely with the governing agencies, such as FDOT. With this close rapport they have been able to close major intersections (such as Kendall Drive, a major 8 lane road) for a weekend, while installing a 72" pre-stressed concrete cylinder pipe, which they completed ahead of schedule.

I understand your project has three (3) major crossings; Ric-Man has performed many such crossings in Miami-Dade County for the Water and Sewer Department. All completed on schedule even after several unforeseen conflicts were encountered, many over a single weekend. They own all the necessary equipment, there are no delays in renting or procuring equipment, which results in having the right machine at the right time with no excuses.

I highly recommend Ric-Man International as one of the premier contractors in South Florida.

If you desire you may contact me at 786-469-2061 for additional information.

Sincerely,

Armando Rubio
